CONTENTS

No. 1, December 25, 1951

PAGE

Masuda, K. and **Aoyama, J.** Endemic Occurrence of Ariboflavinosis and Pellagra (Clinical Observations of so-called "Shibi" or "Gatchaki" in Tsugaru District).... 1

Sato, A. The Most Typical Symptom of Infantile Beriberi, Perliminary Report.... 6

Azuma, T. On the Innervation of the Ventral Abdominal Wall in 10th Month Human Embryo 7

Sato, A. Beriberi and Pyruvic Acid. 22

Isikawa, T. Biochemical Studies on Carbohydrates. CXLVI. Mucocin. Third Report. 23

Wako, H. Pyruvic Acid and Heart Enlarging; and Acetaldehyde, Preliminary Report. 28

Masamune, H., Isikawa, T. and **Katabira, Y.** Biochemical Studies on Carbohydrates. CXLVII. Heparin. 29

Wako, H. Isolation and Identification of Methyl Glyoxal from Human Milk, Preliminary Report. 34

Yosizawa, Z. Biochemical Studies on Carbohydrates. CXLVIII. Structural Study of Group A-specific Carbohydrate from Mucus-mucin of Pig Stomach. Seventh Paper.... 35

Masamune, H. and **Yosizawa, Z.** Biochemical Studies on Carbohydrates. CXLIX. Structural Study of Group A Carbohydrate from Mucus-mucin of Pig Stomach. Eighth Paper. 43

Sato, A. and **Wako, H.** Methyl Glyoxal as Cause of Infantile Beriberi, Preliminary Report. 46

Masamune, H., Yosizawa, Z. and **Maki, M.** Biochemical Studies on Carbohydrates. CL. On Chondrosin and Chondroitinsulfuric Acid. 47

Sato, H. Estimation of Nucleic Acids in Microorganisms (First Report). On the Estimative Observation of Nucleic Acids in Salmonella abortive-equina. 53

Arakawa, T., Wada, S. and **Takahashi, F.** Nutritional Dystrophy with or without Macrocytic Anemia (Studies on the Nutrition of Children in Hirosaki Area. 9th Report). 61

Satoo, S. Adrenaline Content of Adrenals in Rabbits Poisoned with Acetylcholine and its Recovery. 69

Tano, I. A Further Study on the Compensatory Increase of the Adrenaline Content in the Adrenal Gland in Rabbits.... 75

PAGE

Tano, I. Occurrence of the Cold-puncture Hyperglycemia in the Dog. 79

Okinaka, S., Yoshikawa, M. and **Goto, J.** Studies on Cholinesterase. I. On the Distribution of Cholinesterase in the Human Brain. ... 81

Okinaka, S., Kitamoto, O., Yoshikawa, M., Goto, J., Takahashi, Z. and **Oyama, A.** Studies on Cholinesterase. II. On the Cholinesterase of the Human Serum. 87

Sato, S. An Experimental Study of Cerebral Blood Flow in Hypertension. 95

Vol. 55, Nos. 2–3, February 25, 1952

Igarashi, K. Studies on the Glomerular Filtration. I. On the Glomerular Filtration in Cases of Exudative Pleurisy, Especially on the Cause of Water Diuresis.... 105

Igarashi, K. Studies on the Glomerular Filtration. II. On the Glomerular Filtration in Cases of Polyuria and Oliguria. 117

Wako, H. Identification of Methyl Glyoxal from Human Urine, Preliminary Report. 124

Takahagi, H. On the Swelling of Erythrocytes in Isotonic Solution of Various Cations in Cases of Several Internal Diseases. 125

Suzuki, T. and **Ozaki, T.** A Method of Collecting the Renal Vein Blood for the Study of the Liberation of Renin in Non-anesthetized Animals.... 148

Satake, R. A Roentgen-ray Figure, Characteristic to the Diverticulum of the Stomach. 149

Satake, R. Usefulness of the Supine and Prone Position on a Plane Inclinable 45 Degrees for Fluoroscopy of Digestive Tract. 153

Kameyama, S. A Convenient Type of Chest Electrode from Human Electrocardiography.... 158

Suzuki, T., Takahasi, K. and **Tamabuti, K.** On the Rôle of the Augmented Adrenaline Secretion from the Suprarenal Glands after Inhalation of Carbon Monoxide upon the Fluctuation of the Blood Sugar Content and the Blood Pressure Simultaneously Occurring. ... 159

Masamune, H., Yosizawa, Z. and **Isikawa, T.** Mucosin and Mucoitin, Preliminary Note. 166

Yamane, I. On the Biochemical Formation of the Free Vi Antigen, by the Resting or Acetone-killed Typhoid Organism. 167

Sato, A. and **Arakawa, T.** Pyruvic Acid and Acetaldehyde in Human Milk according to Different Arakawa's Reactions. 176

Wako, H., Arai, S., Sasaki, N., Ishikawa, J., Higashi, O. and **Saito, A.** Clinical Picture of Japanese Encephalitis in Children in 1948.... 177

PAGE

Wako, H., Sasaki, N., Ishikawa, J. and **Higashi, O.** Blood Picture: "ELMoNogram" and "Karyogram" of Japanese Encephalitis in 1948. 85:h Hematological Paper. 185

Kaito, I., Tuda, S., Nakazima, T. and **Yamaguti, T.** A New Method of Liver Function Test by Double Loading of Azorubin S. 191

Uyeda, I. Blood Sugar Fluctuation Due to Double Administration of Glucose into the Duodenum. 195

Uyeda, I. Influence of Carbohydrate and Fat Diet upon the Carbohydrate Metabolism in Rabbits Poisoned with Alloxan. 199

Kuroya, M., Ouchi, N. and **Katsuno, M.** Studies on the Antibiotic Substances from Actinomyces (2nd Report). On the Classification of Antibiotic Actinomyces by "Streak Plate Method" (So-called "Primary Screening"). 203

Kuroya, M., Ishida, N., Kobayashi, S., Konno, J. and **Chida, R.** Studies on the Antibiotic Substances from Actinomyces (3rd Report), On the Identification by the Specificity of Culture Filtrates of the Antibiotics from Actinomyces (So-called "Secondary Screening" of the 1st Group of Actinomyces). 209

Tsuiki, Y. and **Kamioka, H.** Experimental Studies on the Shwartzman's Phenomenon of the Ear-Labyrinth. 219

Suzuki, T., Takagaki, T., Aoki, T. and **Tamabuti, K.** Influence of Stimulation of the Nasal Mucous Membrane with Ammonia upon the Adrenaline Secretion from the Suprarenal Gland in Non-anesthetized Dogs. 227

Masamune, H. and **Hirata, H.** Chemistry and Biology of Lipids. IX. Group Lipoid from Hog Lung (First Paper). 233

Masamune, H., Maehara, T. and **Hirata, H.** Chemistry and Biology of Lipids. X. Group Lipoid of Hog Liver (First Paper). 241

Tamaki, T. Studies of Tuberculous Pus by Means of Paper Chromatography, First Report. 247

Suzuki, T., Takagaki, T. and **Aoki, T.** Effect of Roentgen Irradiation of the Adrenal Region on the Adrenaline Secretion of the Adrenals in Non-anesthetized Dogs. 255

Sato, A. Innervation of Corpus Suprarenale in Human Adult. 259

Kobayashi, S., Sato, J., Ishida, N. and **Owaki, Y.** Studies on the Antibiotic Substances from Actinomyces (4th Report), Isolation of Streptomycin from Str. Olivaceus. 273

Kuroya, M., Ishida, N., Katagiri, K., Shiratori, T. and **Chida, R.** Studies on the Antibiotic Substances from Actinomyces (5th Report), "Secondary Screening" Test of 15 Strains of Actinomyces, Specially Antagonistic to Acid-fast Bacteriae. 283

PAGE

Kuroya, M., Ishida, N., Katagiri, K., Konno, J., Kikuchi M. and **Mizuguchi, R.** Studies on the Antibiotic Substances from Actinomyces (6th Report), On the Properties of 5 Kinds of Streptothricin-like Substances. 289

Masamune, H. and **Maki, M.** Biochemical Studies on Carbohydrates. CLI. On Paper Partition Chromatography of Sugars in Particular of Hexosamines and Hexuronic Acids. 299

No. 4, April 25, 1952

Maki, M. Biochemical Studies on Carbohydrates. CLII. On Substances (*Pseudomucin*) from Cyst Fluids Obtained by Hammarsten's Procedure of Preparing Pseudomucin. 311

Hiyama, N., Masamune, H. and **Maki, M.** Identification by Isolation of Sugar Components of a *Pseudomucin* Preparation. 333

Sato, S. Studies on the Chemotherapy of Leprosy. I. Cepharanthin. 341

Sato, S. and **Chida, F.** Studies on the Chemotherapy of Leprosy. II. Koha. 349

Ouchi, N. Studies on the Antibiotic Substances from Actinomyces (7th Report) On the Isolation of Special Anti-phlei Factor from an Actinomyces in a Crystalline Form. 355

Yoshida, Y. Genetical Studies on Skin Diseases. VI. Ehelides inversa (Siemens). 367

Suenaga, M. Genetical Studies on Skin Diseases. VII. Dyschromatosis universalis hereditaria in 5 Generations. 373

Masuda, H., Ohara, M. and **Katsura, S.** Studies on the Temperature of the Gastrointestinal Tract. Third Report. Effects of Cooling and Warming the Epigastrium on the Intragastric Temperature. ... 377

Okinaka, S., Kubo, I., Kuroyanagi, T. and **Hayashi, T.** Studies on the Defense Mechanism of the Body and Neurohumoral Regulation. Report I. On the Neurohumoral Influence upon the Phagocytic Function of the White Blood Cell.... 383

Okinaka, S., Kitamoto, O., Nakao, K., Kuroyanagi, T. and **Shibata, S.** Studies on the Defense Mechanism of the Body and the Neurohumoral Regulation. Report II. On the Role of N. Splanchnicus and Adrenal Gland upon the Antibody Mobilization. 389

Yamamoto, S. Studies on Brain Stem (I). On the Course and Connections of the Intrapontine Facial Nerve in Human Adult. 395

A supplement ("Studies on Melanin" by M. Ito) is appended to this volume.

INDEX

Abtropfung theory (Unna) 1, 4, 8.
Acetic acid 99.
Acethylcholine 99.
Adrenalin 13, 39, 82, 85, 89, 95, 98.
Alkalization potency 90, 103.
Aschner's phenomenon 50, 82.
Ascorbic acid *See* Vitamin C.
Benzoquinone 14, 92, 103.
Bergamotoil 81, 84, 103.
Bittorf's phenomenon 39.
Bloch's dopa-oxydase theory *See* Dopa reaction.
Blue nevus 17, 21, 101.
Capillary resistency 58.
Chinine 97.
Coal tar 84
Copper 1
Diaphoretic test 37, 46, 49, 58, 102.
Dioxybenzene 88.
Dopa reaction 1, 4, 9, 23, 38, 81, 89, 94, 102.
Dyschromatosis symmetrica
——following erythromelalgia 78.
——following pernio 77.
——hereditaria 2, 77.
——on the extremities 77.
Ephedrine 97.
Epheliden 2, 34.
Ergotoxin 98.
Folliculin 99.
Gitterfaser staining (Bielschowsky-Maresch) 5, 22, 68.
Glutathione 1, 89, 94.
Goldfish 88, 92, 97, 103.
Hematoporphyrine 75, 99.
Histamine scratch test 31, 36, 46, 49, 55, 57, 102.
Homolateral nervous disturbance 55, 57, 102.
Hormozyme 2, 75.
Hydroquinone 14, 88, 103.
Incontinentia pigmenti 52, 80, 102.
——achromians 57.
Indophenol-oxydase *See* Oxydase reaction.
Insulin 97.
Iodic acid reducing substance 14, 103,
Iron 1, 14.
Litmus cutaneous test (Leszczynski) 90.
Luteosterone 99.
Malignant melanoma 1, 60, 102.
Face 60; generalized 61; lip 65; pudenda 66; sole 63.
Manganete-Methylgreen method *See* Oxygen reduction area staining.
Matrimony lobe 98.
Meirowsky's phenomenon 39.
Melanin production 84, 88, 92, 97.
Melanocarcinoma *See* Malignant melanoma.
Melanodermitis toxica *See* Riehl's melanosis.
Melanodontia 65.
Melanonychia 68.
Melanophore reaction 75, 97.
Melanosarcoma 69.
Melanosis bulbi 36.
Mesectoderm (Platt) 101.
Mesodermal melanoblast 24, 27, 41, 69, 101.
Mongolian spot 9, 12, 21, 101.
Angioneurotic reaction 30.
Inheritance 27.
Persistant, aberrant—— 40.
Nadi-reaction *See* Oxydase reaction.
Neuroectodermal theory (Masson) 1, 4, 101.
Neurofibril staining (Bielschowsky-Seto) 4, 21, 38, 68, 74, 101.
Neurohormonal theory (Vilter) 8, 104.
Nevus cell *See* Nevus pigmentosus.
Nevus depigmentosus en nappe 49.
Nevus fusco-caeruleus ophthalmo-maxillaris Ota 25, 34, 101.
Nevus pigmentosus 4, 9, 19, 61, 69, 72, 101.
Nevus spilus en nappe 44.
Nevus systematicus 47, 50, 57.
Oxydase reaction 9, 38, 102.
——of skin extracts 10.
Oxygen reduction area staining (Unna) 2, 10, 39, 63, 65, 74, 81, 86, 102.

Panaris mélaniques 67.
Perineural Pigmenthülle (Weidenreich) 26, 42, 101.
Peroxydase reaction (Okano) 9, 38, 74, 81, 102.
——of skin extracts 10.
——of local blood 11.
*p*H 1, 63, 90, 103.
Pigment borderline (Bolk-Sherrington-Foerster) 56.
Pilocarpine 13, 82.
Pituitary hormone 75, 99.
Pyrocatechol 88.
Pyruvic acid 81, 103,
Recklinghausen's disease 17, 101.
Redoxpotential 1, 63, 70, 103.
Reduktionsorte *See* Oxygen reduction area staining.
Resorcinol 88.
Riehl's melanosis 79, 103.
Rivoflavin *See* Vitamin B_2.
Safu 77.
Sauerstofforte *See* Oxygen reduction area staining.
Schwannian cell *See* Neuroectodermal theory.
Sudan III staining 39, 64, 86.
Sutton's leucoderma 62, 72.
Testosterone 99.
Thyroid hormone 85, 99.
Tyrosinase 1, 95, 103.
Ultraviolet ray irradiation 75, 84, 99, 103.
Vitamin A 93, 104.
——B_2 2, 81, 85, 89, 93, 104.
——C 13, 81, 84, 89, 93, 104,
——P 97.
Vitazyme 2.
Vitiligo 10, 12, 72.
Wake-amine 97.
Xeroderma pigmentosum 2, 77.
Yohimbine 99.
